

## Human Options' Ambassador 2018 Program Overview

Human Options is a domestic violence agency that has been serving Orange County communities for the past 35 years. We offer a holistic approach to healing that is reflected in our core services which include robust residential, community based, and community education programming.

The Ambassador program is a new addition to our community education services and we are looking for curious and passionate teens who are interested in growing their leadership skills and ending dating violence in our society. The program's primary goal is to equip teens with the skills needed to become ambassadors of Human Options' prevention efforts and serve their communities as peer-to-peer mentors. A peer-to-peer mentor is a student who can serve as a resource, a helping hand, a sounding board, and a referral service for other youth. In particular, the Human Options' peer-to-peer mentor will receive specialized education and resources relevant to prevention or responding to dating violence and relationship abuse.

As a member of the Ambassador program, participants are committing to participating in the following key activities:

1. Attendance at 10-12 weekly, two hour group meetings beginning in February and running through April 2018 (location: TBD).
2. Completion of two service learning projects related to creating awareness around teen dating violence and/or domestic violence.
  - a. Service learning projects can consist of several events including, but not limited to: tabling/participation in community resource events, hosting and/or co-facilitating Human Options educational activities, participating in the Human Options February campaign for Teen Dating Violence Awareness Month, and/or assisting in the planning and delivery of teen and parent conferences.

Parent(s)/Guardian(s) of program participants also commit to the following:

1. Attending the parent/guardian meeting in early February.
